DETAILED ACTION

1. Acknowledgment is made in the receipt of the amendment filed July 8, 2004. The amendment has been approved for entry.

Allowable Subject Matter

2. Claims 13-18 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious a method of making a ball nut assembly by disposing a crossover member from outside the ball nut into a through slot, wherein a flange of the crossover member is ductilely elongated or staked to engage an undercut formed on the ball nut. The crossover member in Yoshida et al. is provided with flanges on an inner periphery, which would prevent the crossover member from being disposed from outside the ball nut, but rather from the inside of the ball nut.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
